ale by radrowl westward by the Lake Shere route to Seveland; thence, if bound direct to Cincinnam, by he Cleveland, Columbus and Cincinnati Railroad, or uis by the Toledo, Wabash and Western Railroad, d thence to the Ohio and Mississippi Railroad at St. Louis, or any point eastward by the different routes; or from Buffalo and Niagara Falls, by the Great Western Rallway to Detroit, and the Michigan Central to Chicago; or by the Michran Central Steamers, or the Steamers of the lichigan Southern and Northern Indiana Railroad from Buffalo to their respective roads, and then on westward over either road, thus reaching the Ohio and Mississippi Rairoad, either by the Illinois Central or the New Albany and Salein or the Great Western, er the Terre Haute, Alton and St. Louis, or the St. Louis, Alton and Chicago Railroads. If the Southern route be preferred, going by the New Jersey Railroad route be preferred, going by the New Jersey Railroad to Philadelphia, and thence by the Pennsylvania Railroad to Pittsburgh, and thence to either Cincinnation St. Louis; or from Philadelphia to Baltimore, and thence by the Baltimore and Ohio Railroad and connecting reads to Cincinnati. Boston passengers will reach New-York by the Norwich and Worcester Railroad New-York by the Norwich and Worcester Railroad. road and boats. It was the design to provide for all e guests in Cincinnati and St. Louis, but this has n found to be impossible for various reasons, not the least of which is, the purpose of special parties to le together, for which the Committee cannot provide. The Excursion Trains will leave Cincinnati and St. Louis on the morning of Thursday, June 4, and meet at Vincennes, whence the guests can proceed either

to St. Louis or Cincinnati.

The George:Law brings \$1,707,000 in gold, which is mething more than was generally expected. The Golden Age brought over \$2,000,000 to Panama. Accounts from the mining districts are very favorable. The yield of gold is as large as during any period since the discovery of gold. In business there is a fair activity. bill has been introduced into the California Legislature to provide for the payment of the interest of the public debt due in July and January next. A bill "to provide for paying certain equitable claims against the State of California, and to contract a funded debt for that purpose," has met with favorable action by the Senate, and is now before the Assembly. It is proposed to levy a tax of 30 cents on each \$100 worth of taxable property, which will yield a revenue of \$306,000 a year, and leave some \$27,000 annually as a inking fund for the liquidation of the principal in 1876. The bonds are to bear interest at the rate of 7 \$\vec{a}\$ cent. The claim of the State against the Federal Governent for what is known as the "Civil Fund," amounting to nearly \$3,000,000, being the moneys collected for duties upon importations, by the United States Revenue officers, pror to the admission of California into the Union, is also devoted by the bill to the payment of the State's indebtedness. The details of the Act have not yet been perfected, but there is every indication that it will pass in proper shape before the adjournment of the Legislature, while the views of the Executive, as expressed in his message are known to

The San Francisco Belletin says:

A vote of the people will be taken upon the question at the State election next September, and we feel confident that the verdict of her citizens will then retrieve California from the temporary stain of repudiation which has been cast upon her by ill-considered legislation; and this conclusion can be the more safely assumed since the immediate representatives of the people so nobly set the example.

The following is a statement of the operations of the

Bars for remittance by this mail have been in active demand, and as we write anything under 900 is readily

The Bulletin says in regard to the Money market:
The smeant of remittances arriving from the interior during te fortnight ending with our present issue will compare favorbly with that of any similar period since the commencement the Spring's business. The demand for Money, usual for teamer's obligations, has been quite urgent, although engagetents of up-country merchants are in most instances promptly set. Sales of merchanduse from first hands have been only to moderate extent since the 5th inst., and liabilities on this necent for this steamer's salling are proportionately limited the indications are, however, that in consequence of purchases of previous date, a full shipment of treasure will go forward and that accounts between the country and city trade and with morting houses will be more equally balanced than they have een for some time back.

been for some time back.

In the general Money market there has been a good demand for loans upon real estate and stocks, with a very limited opportunity for horrowers to accomplish their negotiation. The security must have been very choice and ample to the fullest extent, that would command money during the fortnight, and rates have somewhat advanced, though generally speaking more astention is given to the character of the security than the rate of interest profered. The best property continues to command money at old rates, but the margin upon loans has been sensibly contracted by the amount of capital seeking investment.

The export of Breadstuffs from the United States, since the 1st September last, to Great Britain and Ire-

The number of vessels now loading cotton for Great Britain and France is 78, against 85 last year at this time. The stocks on hand are 355,000 bales, against 440,000 bales. The present deficit of receipts is 465,-600 bales. The Circular of Mr. Wright says:

Coop. &c.—The unpropitious weather since the opening of this Spring in the South, continues to be the subject matter of correspondence from the entire cotton region; the damage done has not been over-estimated in my circulars of late. It is admitted to be one of the latest and worst seasons, so far, on record, in addition to the damage by frost, previously advised, we have particulars of a heavy rain storm at Mobile, which may have further damaged the prospects of the planter in Alabama. Replanting has been resorted to very generally in the South and South West, and it will require a continuation of very favorable weather from this time to the end of the season, with a late frost, to enable an avarage crop to be secured.

RECEIPTS, EXPORTS, &c.—The receipts fall off rapidly, not withstanding the moderate amount received during the corresponding weeks of last season. The present deficit of 465,000 bales will be increased to about 400,000 in my next week's table. The export to Great Britain last week showed a decrease of 280,000 bales; it stands now at 342,000, and will continue to decrease during the remainder of the season.

The following is a statement of the unovernent in Cotton since the 1st September; last, as compared with the previous four

## Markets. CAREFULLY REPORTED FOR THE TRIBUSE.

Markets. CAREFULLI REFORTED FOR THE TRIBUSE.

ASHES—The market is lower and unsettled; the arrivals are larger; seles of 30 bbls at \$7.375.0.\$7.30 for Pearls, and \$7.025.

BOOTS AND SHOES—This trade suffers considerably from the lameness of Western merchants; but the wound is not incurable, as our West is great in wealth. The fair business that has been done during the past fortinish does not continue; the sales in the aggreate will, show a marked deficiency compared with those of last season. From the North, more particularly the Canadas, there is a fair trade doing, and it is certainly a decirable field for our merchants. The downward tendency of the raw material exerts some influence upon dealers, some of whom are disposed to pres sules. The shipping demand is of but little moment. Quotations are unaftered.

EEESWAX—A moderate business is doing at fermer figures; we goote at 224 220;0.

BELSWAA—A moderate business using a weapone at 250 \$\frac{1}{2}\$ \$4.50;

BRICKS—Hard North River aro in request at \$\frac{1}{2}\$ \$4.25 \$\tilde{\pi}\$ \$4.50;

Philadelphia Fare. \$\frac{1}{2}\$ \$\tilde{\pi}\$ \$4.50.

COTTON—The market has not essentially varied; it is still unsettled and dull. The sales are reported at 1,000 bales. We continue quotations which are for the most part nominal, remarking that Middling [Fplands can be bought as low as 13\tilde{\pi}\$. The weak's expert has been 1,901 bales, viz: to Liverpool, 1,991

des; Bremen, 285 bales; Copenhagen, 25.

Lagosyra. 12 2012; St. Domingo(c), #100B—2011;
COAL—The receipts of Domestic are limited, and with a great increase in the concamption (owing to the very cold and uneasonable weather), prices have advanced elightly. A good demand has prevalled for caroos to go Eastward at #4 252 \$190, and from the yard \$4.252 \$5.2 \$100 for small and large size Peach Orchard. The receipts that far at tide water have not been equal to the expectations of dealers, and we are not likely to have a very large stock at the close of navigation. Foreign continues quiet, and in the absence of sales prices are nominal.

nominal.

L'OPPER—New Sheathing is steady and in moderate request; sales in suits at 321 @35c. Yellow Metal is selling at 27c., 6 mos. Ingot Copper is quiet but steady at 23c, for Baltimore, and 23c. for Lake Superior, 4 mos. Braziers command 35c., and Balts 33c. Old Copper is steady and in moderate request at 25@26c., cash.

CEMENT—Domestic is rather lower; we quote at \$1 10@\$ \$1 15.

CEMENT-Domestic is rather lower; we quote at \$1 10 \$\overline{x}\$ \$1 15. CANDLES—A moderate demand continues for Adamantine at 242 32c. for common to best quality: Stearie sell at 23 \$\overline{x}\$ 31c.; plain Sperm at 42c. and Patent do. at 52c.

DYEWOODS—The stock of Lorwood, Fustic and Sapan is still insignificant, and with a good demand prices still continue to advance; the sales for the week comprise 430 tms St. Domingo Lorgowood at \$2.0 \$\overline{x}\$ 22 \$\overline{x}\$ 42 \$\overline{x}\$ 25 \$\overline{x}\$ 425, cash, in bond; 30 do. Janualea do. at \$2.1 cash, duty paid. Cube Fustic is worth \$32\$\overline{x}\$ 431. Sapan has rapidly advanced; sales of 35 tuns having been effected as high as \$95\$\overline{x}\$ 490, cash, in bond; 5 tuns of [Camwood brought \$150. Barwood is in fair supply, stock about 500 tuns, demand moderate.

the Boston 200 bales Jule sold at \$110, 6 months, and 20 do. Sunn at 45... cash.

HOPS—Holders are very firm; the supply of cholosis exceedingly light, and dealers generally agree that the stock of all kinds held both here and in the country is considerably smaller than that held at the same time last year; a moderate speculative demand has sprong up, based on these facts, and though without altering prices, yet it has tended to strengthen the market. The total sales are 300 bales since last Wednesday. The inquiry for home use is light. We quote at 76 life for common to choice Eastern and Western. Old are firm at 46 55c.

HAV—The arrivals of ble Hay are very moderate and prices are firmer; the high prices prevailing check the shipping demand; sales of 370 beles at 90c. 2 1 P 100 B; loose Hay is pleuty at \$1.49 100 B;

IRON—Scotch Pig remains quiet, but there is no accumulating stock, and prices are unchanged; sales 50 tuns from yard at \$4.5. Small parcels from store command more montey. Common Bars are inactive, and are offered at a concession from former rates. Refined are also inactive at our motations; the last sales of best Rods were at \$77.90, 6 mos. Sheets are steady, and singles are in fair request at \$5c. mos. The inquiry for all description is, however, limited.

We quote:

and singles are in fair request at \$40., 0 mes. The inquiry for all descriptions is, however, limited.

KallT—The market is somewhat nominal for Liverpool Fine.

Last sale of "Ashton's" at \$1.59, Marshall's at \$1.29, and Jeffrey's and Darcey's at \$1.275. Ground is scarce; last sales at 200 klic. Bulk Salt is in fair request and not plenty; sales of Turks Island at 234c. 4 mos.

SEEDS—There is scarcely anything doing in Clover Seed, and prices are nominal at \$1.50 for und is scarce; last sales at 200 klic. Bulk Salt is in fair request and not plenty; sales of Turks Island at 234c. 4 mos.

SEEDS—There is scarcely anything doing in Clover Seed, and prices are nominal at 10 fail.

The sleep of the scarce of 60.65c. 6 mos.

SEEDS—There is exercely anything doing in Clover Seed, and prices are nominal at 10 fail.

Rough Flax is quiet at \$1.20 color by Genter beer have been m

SPERMACETI'S inactive; saies of 3,000 in remea were elfected at 36c, cash.

TEAS—The auction this morning pessed off spiritedly, the
attendance was large. The catalogue was mainly composed of
Colones, the good and fine grades of which sold at an advance;
all sold at and above 45c, those not commanding that faure were
withdrawn. The Greens brought full prices. At private sale
the market is active for both Greens and Blacks, and full prices
results.

WHALEBONE—The market is rather quiet, but prices are nominally the same. The stock has slowly accumulated at the Eastward, and the market there closes with less animation than at the opening of the week; the sales include 2,000 fb North-West at 22-c, cash, and 5,000 fb Cohotak on private terms, both taken for export. At New-Bedford, the transactions for the week comprise 32,000 fb Cohotak, very long, at 90c; 2,000 fb do, at 88 jc; 2,000 fb do, on private terms; and 11,500 fb North-West at 78 c., cash.
WHISKY—The market is firm, the demand fair; sales of 400 bbbs, Ohio and Frison at 31 jc., and small lot at 32c.
ZINC—The market is quiet but steady, at 8 jc. 290; 6 mes.

price P pound. The rates for all real good fair retailing qualities is equal to 11] @12]c.; and some of taking qualities is equal to Hybride; and some of the very fattest sold at 12c, because too fat and kerry for warm-weather markets. The weather for some days has been cool, and favorable for butchers, and sales yesterday evening were made at full prices of last week, and the early sales this morning were lively at full prices, but the sun at 12 o'clock was pretty warm, and that had a tendency to drive buyers to the shade and give the market a rather duil to the shade and give the market a rather dull appearance, and actually reduce the price of a good many bullocks, and those the fattest ones, from one half to one cent a pound on the net weight. At that time some of the drovers thought that the market was overstocked, and a good many cattle would be left unsold. This might have been the case, if dependent upon city butchers alone, because they are certainly But we found several buyers in the yard ready to take all the stock of fair quality for grazing at prices equivalent to 11c. for the Beef, and some was sold for that purpose at 12c. Then there were butchers from New Haven, Bridgeport, New-Rochelle and other towns in that direction, from the interior of Long Island, and from several New-Jersey towns—all waiting for that good time, to them, when the seliers should be willing to sell at rates not over 11c. With so many customers in reserve, we could not see much chance for a falling off of price or prospect of any stock being left over unsold, unless it might be a few high-priced, heavy, fat steers, like those mentioned last week from Gov. Shelby's farm, the second portion of which is here today, and six of them were seld by Shepard, to to into the country to be fed till next Fell at ±165 each—four to Thus. Wheeler and two to Chas. G. Teed, Westchester County. These men are both farmers and catcle-brokers, and possessed of the usual shrewdress of their class, and probably know pretty well what they are about, and whether it will pay to hay such Kentacky Durhams at a price equal to 12c. \$\pm\$ for their beef. Another pair of the same lat were sold to Isace Anderson at 12c.—be to kill and weigh.

The sales this week at Albany for Boston and other Fastern markets must have been large, or else a good many bollocks went to pasture from there, for we hear of 3,700 overthe Central road and 2168 here, leaves 1,512, of which we think 900 weet to Boston and Prividence, 100 to New-Haven, and two droves remained at Albany, which leaves about 40 for the gaziers.

The sales to butchers at Bergen this week have been very brisk, owing to the fact that the stock of beef in the city had ran unrually low, and is still low and will continue so, because in our opinion there is no chance for an increase of supply sufficient to reduce the price.

Cattle now here and on the way have been rushed forward, because the means to feed them at the West is exhausted, and great may look out for higher prices than they have a months.

The severity of all the stock of fair quality for grazing at prices equivalent to 11c. for the Beef, and some was sold for that

following:

One of the best draws here is that of J. Dalby, which he estimated at \$1 cwt. average, and sold to Williams & Hoffman at Albany at \$4 cmt. and the first here is that of J. Dalby, which he estimated \$4 50 average, which hardly pays freight, commission and other expenses. These are nice, fat Illimois steers, full heavy energh for the season. Four of the best soldat \$150 each. S. Sheiman has a lot of Geo. Wellis's cattle quite in contrast to the above, say average of cwt, and not fat, and some coarse selling at 110 115c, pretry doll and slow.

J. C. Houg sold a dave for Win. J. Hutchinson from Henderson County, Illimois, at \$20 average, that weighed 1.320 ft at home, which they lett last Friday week. The freight was \$13 70 a head.

Harris & Rend have a drove of light common Illinois steers, in fair order, say 6 cwt., which if fat is a good size for warm weather, that they expect to average at \$70. They sold two droves at Albany to come here, 100 head \$43, and 100 at \$33;. One of these droves are selling there by Mead & Holsomb, at \$43 average, and are etrimated at 7; cwt. each.

Geo. Ayront is selling a drove for Hatcher, good fair Illinois steers, at Illia 21c. Six to Anderson were estimated tile, by seller, and 12c, by buyer.

A lot of course Michigan cattle, owned by Roome, were selling at 11c.

Thos. Wheeler sold a drove of Iowa steers, average 7 cwt.

by W. H. Moreland, Bourbon county, which they bought at Buffish at \$48. They are estimated at \$7\circ wt, and one selling by George Sage, be thinks at \$1\circ say \$30\circ a\$ head. Chris, Gwyer took 16\circ at \$160.

Orville Hurd has a pretty good lot from the Waterloo distillery, estimated at \$7\circ wt, average, selling at \$1\circ \overline{\text{2}} \overline{\

SHEET—This morket was not so well supplied as for many weeks past, the sales only amounting to 3,000 head. The were sold at prices ranging from 6,125,c, cash. Lambs are with figure 5.0 4.6 each, as in quality.

Headt—The demand for Swine continues good, and all offered were said at from \$7.0 4.3 \$\phi\$ 100 h for stock, and \$\phi\$ \$\times 2.6 3.5 for fit Hers.

Cu was AND Calves—We have no change to note in this market. The sales amounted to 27.5 head at prices ranging from \$1.00 \$\phi\$.

Cu was AND Calves—We have no change to note in this market.

The sales amounted to 27.5 head at prices ranging from \$1.00 \$\phi\$.
